The world's most recognized transport case company now offers TSA accepted padlocks to provide convenient and secure airport cargo inspection.

The Transportation Security Administration (TSA) baggage screeners are trained to recognize the Travel Sentry® logo on TSA accepted locks that allow them to open, inspect and relock baggage. With the new 1SKB-PDL TSA Padlock you set

the combination for your convenience and TSA screeners will be able to open the locks with their TSA numbered key and re-lock the case after inspection making your gear completely secure at all times.

The 1SKB-PDL TSA Combination Padlock is sold in convenient packages of two for securing both ends of your case or luggage.

**Added Security From SKB**

## SKB Makes the Ultimate Tackle Systems

SKB's Large Tackle Box System has been re-designed to accommodate the contours of the optional Rocket Launchers, a set of 4 rod tubes for conveniently holding your rods. The 7200 Tackle Box is rotationally molded for superb durability and strength. All metal hardware, fasteners and latches are of high quality stainless steel that will accommodate a padlock, making the SKB-7200 Tackle Box System Airline Safe. The SKB-7200 Tackle Box System

is the best way to pack for the complete fishing getaway.

The new SKB-7100 Small Tackle Box System offers most of the same innovative features as the SKB-7200 Tackle Box System. It has

four convenient rod holders that replace the pleated pockets of the larger box and includes four clear boxes and a hanging Jig area with padded cover to keep them in place when traveling. The clear lid door is secured with stainless steel hardware and twist latches for added storage.
